

AN OVERVIEW OF OUR HOSTED VOIP SOLUTION

Systemagic VoIP is our fully hosted, cloud-based phone system designed to give your business the flexibility, features, and reliability it needs, without the high costs or complex setup.

Whether you're a small team or a growing business, our solution scales with you and supports the way you work today.

The Benefits of Hosted VoIP

- ✓ Rolling contracts
- ✓ Keep your numbers
- ✓ Scalable solution
- ✓ Fully flexible

Built For Flexibility

With Systemagic VoIP, your team can make and receive calls from anywhere, whether they're in the office, working remotely, or on the move.

Our system works across desk phones, headsets, mobile apps, and desktop software, so you're always connected.

Feature-Rich System

Our platform gives you access to a robust, feature-rich system trusted by thousands of businesses. Enjoy call forwarding, voicemail-to-email, auto-attendants, call recording, and more, all included as standard.

Easy Set-Up & Full Support

We make switching simple. Our team handles the setup and migration for you, ensuring a smooth transition with no downtime.

We also offer full training for your team and can supply any hardware you need, from desk phones to headsets – so you're ready to go from day one.

Scalable & Cost-Effective

Add or remove users as your business changes, with no long-term contracts or hidden fees.

Our 30-day rolling terms give you the freedom to adapt without being locked in.

Keep Your Existing Numbers

There's no need to change your contact details. We'll port your existing numbers across and ensure everything continues to run smoothly.

Trusted By Our Team

We use Systemagic VoIP to run our own helpdesk, handling over 150 calls a day.

If we trust it to support our business, you can too.
